

World Class Cancer Care

Closer to Home!

Featuring the latest technologies, the largest team of cancer specialists in the area, and the only local affiliation with Moffitt Cancer Center, the Center for Cancer Care & Research has set the standard for world-class cancer care close to home.

Access to comprehensive and compassionate cancer care is available for residents of south and east Polk County at the Center for Cancer Care & Research's Bartow facility. Conveniently located off Highway 98 South next to Bartow Regional Medical Center, the Center for Cancer Care & Research in Bartow is operated by one of the area's most respected medical practices – Watson Clinic LLP. For more information call 863-519-7005 or visit www.WatsonClinic.com.

Cancer Care
& Research

An affiliate of H. Lee Moffitt
Cancer Center & Research Institute

BARTOW

Residents of Bartow and surrounding communities have direct access to the latest radiation treatment technologies – including ultrasound guided prostate IMRT – as well as the Center’s extended team of medical, surgical and radiation oncologists and hematologists, certified chemotherapy nurses and mammographers, radiation therapists, physicists, social workers and dieticians.

Patients who receive their care at the Center for Cancer Care & Research in Bartow have access to Watson Clinic’s team of board-certified specialists as needed. Communication of patient information is provided to primary care and referring physicians as well.

The Bartow location also serves the emotional needs of the cancer patients and their families by offering a series of special programs and supportive outreach efforts, such as the in-house “Gift Closet” sponsored by the American Cancer Society, which provides patients with free wigs and prosthetics. There are support groups, lectures and educational programs available for patients, caregivers, family members and survivors.

Medical Director: Dr. Thomas McMicken
On-Site Radiation Oncologist: Dr. John Barrett
