

WATSON CLINIC^{LLP}

Quality Healthcare for Every Generation

Dear Patient:

We are writing to inform you of an important change in your Florida Blue Medicare Advantage HMO.

Effective January 1, 2017, at the request of Florida Blue, Watson Clinic LLP primary care physicians will no longer be in network for the HMO product ONLY. However, all of our remaining specialists will remain in network, but must have a referral from your new PCP to continue your care. This change does NOT apply to the Florida Blue Medicare PPO products; our primary care physicians will continue to remain in network.

Florida Blue will reassign you to the care of a new, in-network primary care provider of their choosing. They will be sending you a letter shortly with this updated information.

Please be advised this was the sole decision of Florida Blue. Watson Clinic diligently attempted to prevent this change and we were regrettably unable to do so.

For your convenience, we have a list of all of the Medicare Advantage plans Watson Clinic LLP is accepting in 2017 on our website: www.WatsonClinic.com/Insurance.

The annual enrollment period for Medicare Advantage plans is from October 15 to December 7, 2016. You can compare plan options and costs to decide which plan is right for you during this time, and change from one Medicare Advantage plan to a difference plan if you prefer. Your change of plan will become effective January 1, 2017.

Watson Clinic is honored to be your provider of choice, and we hope we can continue to serve you in 2017 and beyond.
