PRANAY C. PATEL, MD

# An Expert in Facial Plastics

The visible signs of aging are inevitable, but the tools to reverse those signs are more advanced and affordable than ever before.

## Dr. Pranay Patel

offers a complete roster of services tailored to satisfy a patient's every need. From in-office cosmetic treatments to in-depth surgical efforts, he possesses the tools and training necessary to sculpt the look of of your dreams.

For an appointment,  
call **863-904-6231**.

## Surgical

**Blepharoplasty (Eyelid Surgery)\*** – The removal of excess fat, skin and muscle from the upper and/or lower eyelids to correct droopy or puffy appearance of the eyelids that in some cases also obscures vision.

**Brow Lift\*** – Tightening and removal of skin and muscles to improve forehead wrinkles and drooping eyebrows.

**Chin Implants\*** – Contouring the chin to create a more pleasing jaw line.

**Facial/Neck Liposuction\*** – Removal of excess fat from lower face and neck.

**Otoplasty (Ear Repositioning)\*** – Surgery performed to “pin back” protruding ears by reshaping the cartilage.

**Rhinoplasty (Nasal Reshaping)** – Reshaping the nose to result in a more balanced and symmetric appearance. This procedure can also improve breathing.

**Rhytidectomy (Full Facelift or Mini-Facelift)\*** – The removal of excess skin and tightening of underlying tissues of the lower face and neck region, to reverse the effects of aging.

**Scar Revisions\*** – Improving the appearance of surgical or traumatic scars with lasers, dermabrasion or revision surgery.

**Skin Cancer Reconstructive Surgery\*** – Excision and reconstruction of facial skin cancers with the use of skin flaps or skin grafts to help conceal cancer defects.

*\*These procedures can be done as an in office procedure or under general anesthesia in the operating room.*

## Facial Fillers

**BOTOX®/Dysport®/Revance** – A non-surgical treatment to smooth out expression or frown lines around the eyes, between the eyebrows or forehead area. One 10-minute treatment can last up to four months.

**Radiesse®/Sculptra®** – These easy, safe and convenient cosmetic dermal fillers correct deep facial lines, reduce wrinkles, and restore a natural and youthful look.

**Restylane®/Juvéderm®/Voluma®** – These injectable gels can restore skin volume, enhance softness and revitalize appearance. They are also used for lip and cheek augmentation and enhancement.

## In-office Cosmetic Procedures

**Chemical Peels** – A chemical solution to remove the damaged outer layers of your skin, resulting in a vastly improved appearance and texture.

**Dermabrasion** – This procedure buffs away the top layers of skin, resulting in a healthier and fresher look, improving wrinkles, scars, blemishes or sunspots.

**Kybella®** – Simple in-office injections to dissolve or reduce fat below the chin in the submental area.

**Laser Skin Resurfacing** – Use of state-of-the-art lasers (Fraxel®, Cutera®) to improve skin tone and texture, and to reduce facial wrinkles, scarring, acne pock marks, blemishes or skin pigment changes.

**Laser Hair/Vein Removal** – Long-term hair reduction and spider vein treatment is achieved through the latest in laser energy technology.

**Microneedling with RF (Radiofrequency)** – Simple in-office treatment to stimulate production of collagen and elastin, diminish fine lines and wrinkles, and leave your skin feeling youthful and invigorated.

**Platelet-Rich Plasma (PRP)** – Cosmetic treatment for facial rejuvenation and hair restoration.

**Stem Cell/Exosome Therapy** – Regenerative treatments harnessing the power of stems cells and exosomes to promote skin rejuvenation and hair regrowth.
