WELCOME TO MEDICARE VISIT

Recently enlisted Medicare beneficiaries are eligible to receive a free Welcome to Medicare preventive health evaluation (also known as the Initial Preventive Physical Examination or IPPE) within the first 12 months of their enrollment. This one-time only visit focuses exclusively on health promotion and disease detection, and serves as a great primer on your road to continued wellness and productivity. The IPPE includes:

- Assessment of vital signs
- General vision test
- Discussion on the importance of drafting advance directives
- Review of potential health risk factors
- Recommended list of screenings, immunizations, and additional services prepared just for you!

MEDICARE ANNUAL WELLNESS VISIT

After 12 months of enrollment or one year after your Welcome to Medicare Visit, Medicare beneficiaries receive full coverage for an Annual Wellness Visit. During this examination, we will update your medical record with all pertinent information from the past year, review your history and risk factors for disease, ensure that your medication list is up to date, and provide personalized health advice and counseling.

ALL PATIENTS WITH MEDICARE ARE ELIGIBLE TO PARTICIPATE IN THESE PROGRAMS.

Important Note: Medicare provides coverage of the AWW and the IPPE as Medicare Part B benefits. (There is no coinsurance, copayment or Medicare Part B deductible for these benefits.)
