WATSON CLINIC
Plastic Surgery

Whether you're looking to achieve subtle cosmetic rejuvenation through minimally invasive means, or require in depth procedures to restore appearance and functionality, Dr. Ferguson offers a diverse range of services to cater to your every need. Modern advances in the field of plastic surgery have given patients a host of safe and effective options. Many procedures can even be performed in our office under local anesthesia, providing our patients with added convenience and a lower cost solution.

Dr. Ferguson and his staff strive to meet the patient's image goals in the safest, most affordable manner possible, and in a stress-free environment characterized by compassion and personalized care.

Call today to schedule an in-office consultation, during which we can answer any questions you may have, present before & after photos of your desired procedure, and take you step by step through the process. Your consultation fee may be applied to your procedure. No physician referral is needed.

Dr. Ferguson performs a full range of head to toe procedures aimed at restoring and maintaining improved functionality and appearance. His areas of expertise include:
