ACCREDITED  
LABORATORY  
SERVICES

# WATSON CLINIC

[WatsonClinic.com/Lab](http://WatsonClinic.com/Lab)

**WATSON CLINIC** medical laboratories are among the most highly advanced and expertly staffed in the area. Our convenient laboratory locations offer a wide range of services from routine blood draws to specimen collection, and house a number of departments including chemistry, hematology, histology, microbiology and serology.

Most lab tests are performed in-house, which elevates and expedites the quality of your care. If you have your own Watson Clinic **MyChart** patient portal account, you can access the results from many routine tests in an expedited manner from your computer or mobile device. Other results may require an initial review by your provider, and may be shared with you through mail, phone, or during your next scheduled appointment.

Watson Clinic offers laboratory drawing stations at many of our convenient locations including **Main, Bartow Building A, Bella Vista Building, Cancer & Research Center, Highlands, Parkway Medical Center, Plant City, and South.**

**YOU CAN ALSO SCHEDULE YOUR OWN LAB APPOINTMENTS IN MYCHART AT A NUMBER OF THESE LOCATIONS, WHILE OTHERS MAY REQUIRE THAT YOUR PROVIDER SCHEDULE THEM DIRECTLY.**

Walk-in visits without an appointment will be accepted at each location in the order of arrival, but lab appointments will take priority.

Please see locations and operating hours on the back side.
