YOUR CONTACT FOR CONTACTS!

Full Service Eye Care including annual exams and contact lens fittings.

You don't have to suffer from an eye disorder to benefit from the services of Watson Clinic's Optometry and Ophthalmology departments. Patients 5 years and older rely on these departments for comprehensive vision tests, eyeglass or contact lens fittings, and prescriptions. They also specialize in common concerns related to the eye including the diagnosis and treatment of conditions like glaucoma and cataracts.

In fact, Watson Clinic offers one-stop shop convenience for those who need corrective eye wear. Patients can even place an order for their frames and lenses from our in-house optical shop after their appointment.

WATSON CLINIC
Optometry

APPOINTMENTS: 863-680-7486

Watson Clinic's Optometry department offers a comprehensive roster of services, including annual eye exams, contact lens fittings, and the diagnosis and treatment of common eye disorders.

Our expert optometrists can also provide direct referrals to our Ophthalmology department when further specialized care is needed.
